Copy of D.O. letter No. A.5-2523-35 dated the 16th January 1936, from the Deputy Commissioner, Kadur District, Camp Sringeri, to the Revenue Commissioner in Mysore.

In enclosing a copy of the letter received from Dr. D.S. Puttanna, District Medical Officer, Kadur District, I write to state that I came to Sringeri last evening and was able to go over to " Sachidananda Vilas " in Narasimhavana (His Holiness's Residence) this morning at 9 A.M. I found that His Holiness was in the kitchen portion of the building and three rooms have been allotted for his use. I was taken by the Agent as far as the windows and I could hear him raving, laughing and crying, he was also beating himself with his hands. I then observed through the window that His Holiness's mental condition was bad. Till now there does not seem to have been any proper medical help but I doubt whether His Holiness would subject himself to any treatment. I understand that he has some lucid intervals also in the afternoon or in the evening and that he comes out to have his usual ablutions in the river. Persons here ought to be particularly careful even at that time as one cannot be certain as to how long the lucid interval lasts. I found an open draw well in the kitchen enclosure and as His Holiness is staying there, I consider it necessary to issue instructions to the Agent to immedia fit up a wooden frame on the parapet wall with expanded metal doors which should be locked. The work is taken on hand and will, I hop be completed before tomorrow evening. I have also instructed the Agent to double the strength of the personal staff till His Holine is in his normal health.

2. In respect of the administration of the Jahagir it looks to me necessary to make some satisfactory arrangement as peo here tell me that His Holiness has not been alright for some month past and that every now and then, he is having such attacks. But these attacks do not seem to have been as violent as they are at present and this seems to be the reason as to why correct information was not furnished by the Agent here though he does not admit it. It seems to me quite necessary now not to burden His Holiness with the administration of the Jahagir nor is it advisable to leave things entirely in the hands of the Agent who is a local man with a

lot of local prejudices. I would, therefore, suggest kindly visit this place and see things for yourself. It be possible to decide what is necessary in the best interest Mutt.

3. Just as I finished this letter Doctor Puttanna again from Chikmagalur to give suitable is in my presence to the Agent in respect of the care and treatment necessary for His Holiness.

Copy of D.O. letter dated the 15th January 1936, from the District Medical Officer, Kadur District, to the Deputy Commissioner Kadur District

Your D.O. of the 11th instant informing me that His Holiness of Sringeri is slightly indisposed and is also slightly mentally unfit and requesting me to go to Sringeri and render the necessary medical aid:

Adverting to your D.O. above, I write this to state I proceeded to Sringeri on the 12th, and soon after arrival there about 6 that evening, I called on the Agent of the Mutt and requested him if I could see His Holiness then to which he said that it was not so urgent and that I could see His Holiness the next morning - between 9 and 10. The Agent took me and the local Sub Assistant Surgeon who accompanied me across the river in a boat the next morning and seated us in the verandah of His Holiness the Late Sri - Narasimha Bharati Swamigalavaru, telling us that he would go and find out if His Holiness could be seen then. While we were waiting here, we heard His Holiness shouting out and occasionally laughing. The Agent soon returned from His Holiness and took us both to the passage between the two rooms in the right wing of the Out-house and drew our attention to His Holiness chanting the hymns in the room facing us, the door and windows of which were kept closed. We were then led out to the Out-house verandah where we were standing and listening to His Holiness who was found be bre very long to shout out more loudly whereupon myself and the local Sub Assistant - Surgeon went inside to find out what was actually the matter. The window of the back room was open and on peeping through it, we -

we noticed His Holiness seated on a wooden plank with his eyes closed and chanting. Even though myself and the Sub Assistant Surgeon were standing outside the window for a few minutes, His Holiness did not open his eyes. We then came out, stood up in the front verandah and sent a messenger across with a message. As soon as we heard the messenger announcing to His Holiness that the Doctor is come, we heard His Holiness shouting out at the top of his voice and banging the window shutters against the messenger. We were next led to the verandah of the late Holiness's temple as we were sitting here, I was able to hear His Holiness still shouting, although the window facing the temple was closed. His Holiness soon quitened down, when we left the temple.

About 6 on the evening of that day, I went across the river to see His Holiness without giving previous intimation. Myself and the local Sub Assistant Surgeon met His Holiness in the passage between the out-house and His Holiness's usual main residence. His Holiness looked calm now and made enquiries of the local Sub Assistant Surgeon. Although the local Sub Assistant Surgeon introduced me to His Holiness, His Holiness did not recognise me or made any enquiries of me, as he used to do when I visited His Holiness on two previous occasions. We both watched His Holiness going to the river for the usual baths, followed by a servant.

We then crossed the river and spoke to the Agent who was in front of the Vidyaranya Temple on the bank of the river. The local Sub Assistant Surgeon complained to the Agent then in my presence that he was not informed of the mental unfitness of His Holiness. I then requested the Agent to keep the local Sub Assistant Surgeon informed of any change in the mental attitude or health of His Holiness to the local Sub Assistant Surgeon who is the medical man on the spot so that he may render immediate medical aid and seek for additional help if he considers necessary.

The Agent apprised me that His Holiness had given up taking milk for a month or so, under the impression that (Medinal) medicine was being administered in milk and that he was averse to taking any medicine and that His Holiness's constipation was being relieved by the administration of vegetarian diet and fruits.

I therefore prescribed supplementing the diet he was

was already having with a more generous supply of vegetable comprising tomatoes, cucumber, fresh tender peas, Naul Kauhi fresh cocoanut adding fresh lime juice, pepper and salt to taste, Kasumbaries of green dhal or horse gram dhal (ಹೆಸರು ಬೇಳೆ ಹೆಸರಂಬಿ, ಕುಡುರೆ ಬೇಳೆ ಹುರಳಿ ಕಾಳಿನ ಕೋಸಂಬರಿ) by rotation to break the monotony, and af fresh fruits such as oranges apples and figs, fresh milk and butter.

I enjoined on the Sub Assistant Surgeon to be looking after His Holiness on the lines suggested as above.

I am of opinion that His Holiness is mentally unsound and therefore Dr. M. V. Govindaswami, the Superintendent, Mental Hospital, who has recently returned from the west after making a special study of the Mental Diseases be deputed to examine His Holiness and treat, leaving full instructions regarding the treatment with the local Sub Assistant Surgeon whenever he considers His Holiness fit enough.

I would also urge in the meanwhile that you will be so good as to make more adequate arrangements for securing the safety of the person of His Holiness by detailing a greater number of servants to look after His Holiness and supplying better furniture etc., to His Holiness.

Copy of D.O. letter No. 2523-35 dated the 17th January 1935, from the Deputy Commissioner, Kadur District, to the Revenue Commissioner in Mysore, Bangalore.

In continuation of my letter of yesterday, I enclose a copy of the letter received from the District Medical Officer this evening in respect of the health of His Holiness the Swamigalu.

D. O. letter dated the 17th instant from the District Medical Officer, Kadur District, to the Deputy Commissioner, Kadur District.

In continuation of my letter of the 15th instant regarding the medical aid to His Holiness of Sringeri I hasten to stat as follows:-

Between 9 and 10 yesterday night, myself and Sub / Surgeon of Sringeri went across the river and found His Ho walking up and down the two rooms in the right wing of th

'n door was bolted from outside and talking to h

English, Tamil, Telugu, and in Kannada and occasionally crying, - sobbing and laughing.

On enquiry, I learnt that His Holiness had some sleep in the night. I also learnt that His Holiness was having the - vegetable salads and Kosumbaries and that His bowels were in consequence acting freely everyday.

Early this morning between 5 and 6 we both went across the river and found His Holiness not so violent as the previous night but quieter, chanting hymns only every now and then in a low tone.

I have directed the local Sub Assistant Surgeon to treat His Holiness and to keep me informed of his health by reporting to me at least once every week, if not oftener.

Dear Dr. Subba Rao,

With apologies for the delay in reporting to you re my movements to Sringeri, I hasten to state that on receipt of information from the Deputy Commissioner Kadur District, re His Holiness's ill-health, I proceeded to Sringeri on the 12th. inst. and returned to the Head-Quarters on the 15th. after availing myself of the general holiday on the 14th, in anticipation of your kind sanction, to attend to my urgent private affairs at Tirthahalli.

As the Deputy Commissioner desired me to see that a detailed report re His Holiness's ill-health reached him at Hariharpur by about 12 noon on the 16th for expeditious submission of his own report to the Government and as I was desirous of taking advantage of his presence at Sringeri for his intercession on behalf of the Sub Assistant Surgeon at Sringeri for a closer co-operation between him and the Satt Authorities re the treatment of His Holines and with a view to satisfy myself as to how far His Holiness was progressing under the prescribed treatment, I ran up

To

The Chief Secretary to the Government of

His Highness the Maharaja of Mysore, Bangalore.

GENERAL 1 FEB. 1936

Sir,

In continuation of my D.O. letter No. G.C.155-6 dated 27-1-1936, I have the honour to forward herewith for the information of Government copies of subsequent reports received regarding the condition of His Holiness the Swami of Sringeri Mutt. As will be seen, the latest report says that His Holiness is found "quieter and in better contact with his surroundings" and his words and sentences are meaningful and in sequence.

I have the honour to be,

Sir,

Your most obedient servant,

tter dated 27-1-1936, from rs. D.S. Puttanna, and M.
ndaswamy, Camp Sringeri, to the Senior Surgeon in Mysore,
angalore.

We observed His Holiness this morning between 6 and 8 and found His Holiness quieter and in better contact with his surroundings. His Holiness's words and sentences were meaningful and in sequence.

The Agent told us that His Holiness had sound sleep yesterday from 10 and that His Holiness made specific enquiries whether the orders passed by His Holiness re: the payment of pension to a blind person Krishna Sastry had been carried out.

We are of opinion that Mr. B.C. Padmanabhan, the Sub Assistant Surgeon on special duty with His Holiness who accompanied us to-day to observe His Holiness will be able to render the necessary professional services to His Holiness hereafter. The Sub Assistant Surgeon has been supplied with all the necessary drugs.

We feel satisfied that the disorder from which His Holiness is suffering-one of the affective psyychoses- is running its normal clinical course and that there is no cause for immediate anxiety.

We are therefore leaving Sringeri to-day.

A copy of the typed memo of instructions issued to

Camp Sringeri, to the Senior Surgeon in Mysore,

We observed His Holiness again this morning between 10 to 12 and found His Holiness restless and in almost the same state as yesterday.

The Agent informed us that Medinal was administered and that His Holiness had sleep for some hours last night, and that His Holiness asked for his food and ate it.

Passed Sub Assistant Surgeon Mr. B.S.Padmanabhan who has been detailed for special duty on His Holiness as reported previously, was also with us. He has been made acquainted with the situation and has been given instructions regarding the treatment and has also been directed to remain on the other bank of the river so as to be in readiness for any call to render His Holiness the necessary professional services at any time.

The following are the lines of treatment, in general, to be adopted for His Holiness's condition intended solely for the guidance of the Doctor. But, he should use his discretion in chaning the line of treatment whenever His Holiness's condition demands it

1. Rest: His Holiness should have complete quiet and rest. His Holiness should not be disturbed, unless it is absolutely necessary.
2. Baths: His Holiness should have warm baths twice a day preferably between 8 to 10 in the morning and between 6 to 8 at night. They should be given continuously for not less than 2 hours and for not more than 3 hours at a stretch. They should be given in large tubs wherein His Holiness could stretch himself comfortably, the whole body being immersed in water, except the head and neck, with a cold pad on the head. The tub should have been previously filled with warm water and additional hot water added on every now and then to keep the bath comfortably warm. Immediately after the bath, His Holiness should have not less than half a pint of milk. Into this milk should have been added one heaped tea-spoonful of poppy seeds ( ), 8 almonds and a little sugar ground up with a little saffron.
3. Diet: His Holiness's usual diet should be supplemented by a generous supply of vegetable salad comprising Tomatoes, cucumber, fresh tender peas, Mual Khaul and fresh cocoanut, adding fresh lime juice, salt and pepper to taste and of Kosambaries of green gram, Dhal or Bengal Gram Dhal (

by rotation to break the monotony, and by fresh fruits such as apples, oranges and figs and by plenty of milk and butter.

4. Drugs: 1. Calomel Grs. 1_2 once at bed-time every 4 or 5 days.
   2. Medical one pill of Grs. 5 powdered, mixed with sugar and flavoured with Ol. Caryophylli, whenever His Holiness is restless.
   3. Coramine 1 c.c. by the mouth (if injection is not possible), every morning and whenever there are any signs of exhaustion.
   4. Paraldehyde: (a) 1 to 2 drams by the mouth, instead of medical in an ounce of orange juice and suitably flavoured, or 2 drams of Paraldehyde with 4 ounces of cocoanut oil to be administered as an enema, after a preliminary lavage of the lower bowels with warm water. To be given only when

When His Holiness is very restless and excited.

5. The doctor will summon for additional help, whenever needed, without loss of time.

Letter dated the 19th January 1936 from the Agent, Sringeri Jahagir, to the Deputy Commissioner, Kadur District.

I beg to state that His Holiness' condition was somewhat violent yesterday. After Bhiksham he was calm and the local Sub Assistant Surgeon has observed this. He took bath and food as -- usual, in his natural course. This morning, he was not violent and quite calm, so also in the afternoon. He slept in the night. The medicine is being used, as per directions, from yesterday.

The well work is completed.

Copy of letter dated 24th January 1936 addressed to the Senior Surgeon in Mysore, Bangalore, by the District Medical Officer, Kadur District, Chikmagalur, and the Superintendent of the Mental Hospital, from Sringeri Camp.

We observed His Holiness again this morning between 10 to 12, and found His Holiness to be restless, talkative and emotional. His Holiness has spells of silence lasting for variable periods at a time during which He will be motionless and rigid. Suddenly He gets out of such a spell and bursts out into disconnected words and sentences in many languages. He looked tired.

We were informed by the Agent that His Holiness takes food and that He has short periods of sleep.
We have advised plenty of butter and milk to be given to His Holiness, in addition to fruits and vegetables.

We have also prescribed; Calomel grs. 1½ to be given to His Holiness tomorrow.

(ii) One pill of Medinal grs. 5, powdered with sugar and falvoured with oil of cloves to be administered this evening.

(iii) As restlessness is very exhausting, we have advised the administration of 1 c.c. of Coramine by the mouth every morning and whenever His Holiness shows signs of exhaustion.

The above have been prescribed in addition to the baths and diets prescribed previously.

We have thought it desirable that a Sub Assistant Surgeon should be detailed for special duty for the treatment of His Holiness; accordingly, a telegram has already been despatched to Dr. H.V. Ramaswami requesting him to

Second Sub Assistant Surgeon, Mr. Y. Ramaswami, who has had special training in the Mental Hospital recently, from Chikmagalur, to Sringeri.

In continuation of my previous reports, I write to state that His Holiness the Jagadguru seems to have shaken off the ailment he was suffering from. Since this morning he has been attending to his routine duties and he desired " Diksha Visarjane" which was arranged for. In case the present condition continues for a day or two he might be considered as - perfectly cured. An interview with him by you might be very beneficial. I will submit a further report after watching the turn of events tomorrow. Every precaution is being taken to see that no disturbance is caused. Visitors have been strictly excluded.

I beg to report that I visited His Holiness last night and to-day. His Holiness slept till 5 a.m. last night. His Holiness bathed in the river this morning and after attending to his morning prayer, crossed the river and visited Sree Saradambal and other temples. Knowing the improved condition of His Holiness some people that were there paid their respects to the Guru, when he made suitable enquiries of the welfare of everyone. Necessary steps were taken to prevent the crowds. At 10 a.m. His Holiness returned to his residence on the other side of the river and attended to regular duties.
